

Save Love

Vertical Horizon

Somewhere in the silence
Just beyond the memory
In the warmth of darkness
In the close eternity

Breathing out
Breathing in

I could be your hero
You could save the dying day
Just before the bomb goes
Just before we fade away

Let it out
Let it in

So hold me like there's nothing left
And all we have is in our hands
And everything could turn to dust
As long as there's the two of us
We'll give it all away
We'll give it all away
To save love
Save love
Save love
Save love

Waking on the shoreline
As the storm comes crashing in
Every breath a lifeline
Every hope a paladin

Looking out
Looking in

Is there more than one word
Is the answer in the sand
Could the water heal us
As we cling so hard to land

Fading out
Fading in

So hold me like there's nothing left
And all we have is in our hands
And everything could turn to dust
As long as there's the two of us
We'll give it all away
We'll give it all away
To save love
Save love
Save love
Save love

So hold me like there's nothing left
And all we have is in our hands
And everything could turn to dust

As long as there's the two of us
We'll give it all away
We'll give it all away
To save love
Save love
Save love
Save love
Save love
Save love
