

# Appalachian Springs

The Verve

Does anybody know where we really gonna go  
I was wondering if it's god damned beautiful  
You know the thing we cannot trade, forever wrong  
[Repeat]

Solitude, my secret mood, Appalachian springs  
On my things  
Take a step to the left  
Take a step to the right  
I saw myself  
And it wasn't quite right

Does anybody know where we really gonna go  
I was looking for answers in the sun  
And the feelings that a man can't control  
And if the fire burn bright  
In the deadly night  
I said that I would never be on their side

Take a step to the left, take a step to the right  
And I saw myself (and I give it to...)  
And it wasn't quite right  
[Repeat]

And I was waiting for...  
Like a... calling, singing in the sun  
You said 'I remember '69'  
I said 'ok'

Solitude, my secret mood, appalachian springs  
On my things

Take a step to the left  
Take a step to the right  
I'm gonna keep it together  
[Repeat]
