

Endless Life

The Verve

Drink the water to ease my pain
Nights like these I only read about
Nights like these I only dreamt about
As we turned
As we rolled
I felt something strange
I felt you
Something light
Something so bright
I think it was the way of things
I think it was the way of things
Back come back again
Get me a life
Get me a life and see it in everything
Through the dim light
Through those dim lights
I've fallen I'm falling falling falling falling
In the endless life
Endless life, ... (16x)
