

## Endless Life

The Verve

Drink the water to ease my pain  
Nights like these I only read about  
Nights like these I only dreamt about  
As we turned  
As we rolled  
I felt something strange  
I felt you  
Something light  
Something so bright  
I think it was the way of things  
I think it was the way of things  
Back come back again  
Get me a life  
Get me a life and see it in everything  
Through the dim light  
Through those dim lights  
I've fallen I'm falling falling falling falling  
In the endless life  
Endless life, ... (16x)
