Make It Till Monday

The Verve

Hey my friend are we gonna make it till Monday? Another Friday night waiting for a revelation I can see a million faces in the condensation

Hey my friend are we gonna make it till Monday?
Hey my friend you better leave now
I'm gonna go my own way
You said I suffer from inner frustration

In a moment you changed

Now things weren't the same

You were talking at me not with me

And your tongue was burning up in flames

Are you coming back?

Are you coming back?

When Monday comes you'll be alone

With the whole world staring at you

Better leave now
