Can you keep yourself on for good Seems like the whole world is losing How do you stop yourself up Even if seems like the whole world is crying

Aaaah Oooooh
Aaaah Oooooh
She got all I need
The air I breath
When it comes to my valium skies
She don't mind if I cry

How do you stop your love from crying Even if you knew she was lying How do you stop this world from loathing Still no knocking with all these cards I'm holding

Aaaah Oooooh
Aaaah Oooooh
She got all I need
The air I breath
When it comes to my valium skies
She don't mind if I cry

She don't mind if I cry
She don't mind if I cry

Aaaah Oooooh
Aaaah Oooooh
She got all I need
The air I breath
When it comes to my valium skies
She don't mind if I cry

When it comes to my valium skies She don't mind if I cry
