

# Halflight

Vesania

Even though I walk through the valley of the shadow of death.  
I fear no light I fear no pain I fear no salvation  
As I stand on the top of the highest pile of skulls  
I inhale fear and exhale anger...

I summon thee, spirits in the depths and in the stars  
Confront me as I am, for the blasphemy against you all...

As the fallen remember the heaven and joy - I cherish all past  
reminiscence  
The greatest curse of all in we can never forget what we've lost...

"Once I was the one to crave your light, and I was the one to ease  
your toil"  
The greatest loss is what dies inside, dies inside of us while  
we live

This is how it all began, I was left with nothing  
First you let me touch and feel this sober adherence  
Then you make me watch you die, as I go through the motion of my  
life  
The tranquility and calmness was what I was looking for

Now as I came to the place of no return  
I'll make you all loose your belief and burn  
And when it all ends, when your hopes are gone, I will understand  
all the things I've done  
Seeing all the graves and weeping men upon, nowhere to go from  
here  
I face the barrel of a gun, all knowledge come from experience  
Loss and possession, death and life are one, there falls no shadow,  
where there shines no sun.
