

## Built to Fail

VETO

I was giving you some kind of a present  
I was giving you, though you're more than i deserve  
And i was pointed to give you everything you need  
But instead i do whatever it is i please

And i was built to give you  
more than do now  
And i was built to show you  
more than i do now  
And i was pointed to give you  
the world on a platter  
But instead i just sit here and do nothing that really matters  
x2

You lift me up from  
The world of falling  
You kept me going  
And this is how i thank you x6

You lift me up from  
The world of falling  
You kept me going  
And this is how i thank you x5
