VETO

We have to lean on each other for success in this
We have to trust, that there's a reason for doing this
'Cause everything else but us is falling apart

I know the way to all of the exits
But I'd rather stay in my seat than leaving it
'Cause everything else but us is falling apart

And when the plane starts stalling
We'll be forced to use our wings
And when the chutes won't open
We'll be forced to use our wings

In a way I know we can make it
At the end of the day there is no way to fake it
'Cause everything else but us is falling apart

And I
I trust the plane that we fly will carry us
And it will just as long as we're steering it
While all of the world below us is falling apart.

And when the plane starts stalling
We'll be forced to use our wings
And when the chutes won't open
We'll be forced to use our wings

Everything else but us is falling apart

And I know
That they think
They can teach us the way
They can lead us to
Happiness
Only to find
That it's
Fake

'Cause I know
Who I am
And I know
What I want
Out of all
Of the things
You can have
In the world
I want this
