

# Bully Me

Vex Red

Say something to me  
Tell me this is fake  
Forget compromise  
They just complicate  
Long ago, empty again

I don't want sympathy  
I'll do it my way  
I don't want to listen  
To what they will say  
I'm much to paranoid

Your calling me  
You want peace  
May I will be  
May you care

It becomes a habit  
A priority  
Never will forget it  
It's inside of me  
It makes me feel ugly  
I don't want it to be

Your calling me  
You want peace  
May I will be  
May I care

Holy Sent me  
I want to die

Your calling me  
You want peace  
May I will be  
May I care

Your calling me  
You want peace  
May I will be  
May I care
