Bully Me

Vex Red

Say something to me Tell me this is fake Forget compromise They just complicate Long ago, empty again

I don't want sympathy
I'll do it my way
I don't want to listen
To what they will say
I'm much to paranoid

Your calling me You want peace May I will be May you care

It becomes a habit
A priority
Never will forget it
It's inside of me
It makes me feel ugly
I don't want it to be

Your calling me You want peace May I will be May I care

Holy Sent me I want to die

Your calling me You want peace May I will be May I care

Your calling me You want peace May I will be May I care
