

How long will I have to wait here for you
I need to be content with what you do

But when I watch you
Waste your wish for control of me
It upsets me so
I will smile
I will walk away

Tell me how you feel
I've changed my mind
Tell me how you feel
I've changed my mind

So much you tried to take from me
I followed you obsessively

Too long

You make no sense with what you say
I've cut myself to get away
It hurts

Tell me how you feel
I've changed my mind
Tell me how you feel
I've changed my mind

Let me know something to
Let me know something to

Make me feel I'm something
Make me feel I am
Make me feel something
Make me feel for you.
