

Your to near me
I'm on fire
You surround me
You steal my breath

Trapped inside here
When you're around
I should go home
Move away from me

This time I mean it
Its time you left me alone
I wont hurt myself
For you or anyone

Your to near me

I'm on fire
You surround me
You steal my breath

Trapped inside here
When you're around
I should go home
Move away from me

This time I mean it
Its time you left me alone
I wont hurt myself
For you or anyone

This time I mean it
Its time you left me alone
I wont hurt myself
For you or anyone
