

## Lady Thief: What We Are

Vexillum

I have to look into his eyes  
With my lips I'll play and lie  
I'm your light, I already know  
What you seek and looking for...

Wondrous eyes  
She speaks to me, I don't know why  
How come she knows about my plans?  
I'm dreaming! I don't care!

Follow me my friend  
I bring advice for your own quest...  
I'm lost, without a path  
You are a sign, perhaps!

Faithfull and fearless in front of a tricky mind  
A wild rationality as weapon and shelter  
Why get to this madness?  
Who we are?  
Who'll we become?

We are bound to our fate!  
We are lost in our maze!  
On the way alone, forever  
Hunted wanted, outlaw stranger!

We are bound to our fate!  
I never could choose  
We are lost in our maze!  
Always searching for ruse  
On the way alone, forever  
I'm not evil  
Outlaw stranger!  
But I need to hide the truth!

I understand your price  
Something changed into your eyes  
Why do you need that sword?  
Your tongue is not enough?

I already know my blames  
I have to mind my life and pains  
Icy eyes and harder heart  
Is what I learnt from past

I think I will not flee  
Where is the faith I gave?  
I need to survive!

Give me what you have or fight!  
It's a spiral to nowhere, you can only gain:  
Ruin, Sorrow, pain  
Join me and stop to cry  
We stand together, why  
You can't fight and rise
