

# Rollin' Like a Stoner

Vic Mensa

Rollin' like a stoner  
Rollin' like a stoner  
Rollin' like a stoner, I don't care about everything  
Out of control, I forgot to take my medicine  
If I take this pill, that would be death of me  
I am a disaster, I don't need a recipe  
Tried to be sober, that didn't work for me  
I don't know your name, please excuse my memory  
Anti-social, get the fuck away from me  
I got a problem

Rockstar life  
I got the salts, I got the spice (Vroom, vroom)  
Fuck every night  
And if she bad, I hit it twice, yeah

(Rollin', rollin', rollin', rollin')  
Rollin' like a stoner  
Rollin' like a stoner  
Rollin' like a stoner  
I got a problem nobody knows  
Rollin' like a stoner  
Rollin' like a stoner  
Rollin' like a stoner  
I got a problem nobody knows

One, two, three too many drinks, I think I might forget  
How to count to ten, I tend to turn two shots into a fifth  
I drive better when I'm drunk  
I rock leather like a punk  
Hennessy make me Dead Kennedys, I get too drunk to fuck  
They say "Vic, are you okay"?  
Dude, no way  
I don't even know no more  
I don't even pour no more  
But I be leanin' like a cholo  
Tony Hawk I go overboard  
Need to take it slow mo'  
Your girl treat me like a Polaroid  
Shake it for a photo  
Swi-swi-swimming in alcohol  
My Marco Polo  
Baby girl I am a loner  
Flyin' high and solo  
Rollin' like a stoner  
Out of control  
Cause I got a problem nobody knows

(Rollin', rollin', rollin', rollin')  
Rollin' like a stoner  
Rollin' like a stoner  
Rollin' like a stoner  
I got a problem nobody knows  
Rollin' like a stoner  
Rollin' like a stoner  
Rollin' like a stoner  
I got a problem nobody knows

Pour another cup, yes  
I can hear the voices, in my head  
Tellin' me to jump off, of the edge  
I got a problem, nobody knows  
I got a problem, nobody knows  
I got a problem, nobody knows
