

# Angel

Vicci Martinez

It's far beyond me;  
yes it's out of my reach  
There's nothing I can do now  
It's up to you  
And don't waste and yeah just useless energy  
I can't believe how far we've come brother  
Thank you , I'll thank me, we'll thank this family  
La la, la la and lalalala

A new story a brand new dream  
And with my hands in your hands come and fly with me  
And let this cloud break open bring this child her  
peace  
C'mon and send me my angel

We pick up the pieces  
And but this time you're missing one  
Unfill these spaces yeah deeper deep water  
Another story sung and  
la la, la la and lalalala  
la la. la la and lalalala

Oh yeah  
A new story a brand new dream  
And with my hands in your hands come fly on with me  
And let this cloud break open bring this child her  
peace  
Yeah won't you send me my angel come down and set me  
free

La la, la la and lalalala  
la la, la la and lalalala

Let this cloud break open  
Won't you bring me my peace  
Won't you bring me my peace

Wont you send me send me my angel
