

Disillusion

Vicci Martinez

I believe
We start out free
Sheltered from this evil world
And my view
On life is simple
Now careful of the things you choose
And time
Seems neverending
Life is just a game never lost
Theres no worry death or confusion
This easy road never stops

Soon we come to find
This world wont treat us kind
Leads us to be blind
And give into their lies
This disillusion
This disillusion

And now
That we have grown
And memories just bring us tears
Desire
Our dreams unfolding
Will never ever reappear
The pain
Seems neverending
The future turns out to be a waste
Cause were all slaves for somebody else
Crash and burn becomes our fate

Soon we come to find
This world wont treat us kind
Leads us to be blind
And give into their lies
This disillusion
This disillusion

Soon enough we learn to settle for less
We've all found comfort among this distress
All we can do is bring out the best within

Soon we come to find
This world wont treat us kind
It leads us to be blind
And give into their lies
Soon we come to find
This world wont treat us kind
It leads us to be blind
And give into their lies
This disillusion
Its a disillusion
