

# Find My Way Home

Vicci Martinez

Every day turns into a maze  
I'm just trying to stay in the page  
In the lines but mistakes are made  
And I know this is just a phase  
Of my life that will change I don't need to explain I'm  
gonna find my way home

And I know I put in my time  
Working hard every day and night  
And somehow that can be a crime  
Got no choice better treat me right

I keep crying baby I keep on trying baby cause I'm  
gonna find my way home  
You know I need you baby, you know I need you baby I'm  
gonna find my way home  
I keep on crying baby I keep on trying baby cause I'm  
gonna find my way home  
You know I need you baby, you know I need you baby, I'm  
gonna find my way home

Every day turns into a maze  
I'm just trying to stay in the page  
In the lines but mistakes are made  
And I know this is just a phase of my life that will  
change  
I don't need to explain I'm gonna find my way home

You know I need you baby, you know I need you baby  
I'm gonna find my way home  
I'm gonna find my way home (7x)
