I Want Your Kiss

Vicci Martinez

Countdown to midnight baby, and I'm out here looking for you
'Cause you're on my wish list honey, and I wanna be on yours too
Let's get down to business; can I get a witness
'Cause I want you to be my boo

But there ain't no pressure
Don't need to prove
'Cause you got me feeling, feeling good
And I wanna, wanna, wanna, wanna, wanna,
I want your kiss (When you're talking, when you're walking, oh baby don't stop it)
I want your kiss ('Cause I need it, and I mean it, and you better believe it)
I want your lips up against mine when we grind by my side
Oh baby 'cause you're super fly

And you got me feeling, feeling good
And I wanna, wanna, wanna, wanna, wanna,
I want your kiss
Na, na, na Na, na, na
I want the front row seat, could you make me a VIP
When you're in the spotlight baby, I don't want to miss anything
Can I get a witness, 'cause you're making me religious
And I want you to be my boo

I want your kiss (When you're talking, when you're walking, oh baby don't stop it)
I want your kiss ('Cause I need it, and I mean it, and you better believe it)
I want your lips up against mine when we grind by my side
Oh baby 'cause you're super fly
And you got me feeling, feeling good
And I wanna, wanna, wanna, wanna, wanna,
I want your kiss

Stop playing with me, you know I'm sensitive
I'm racking heartaches up, this might get expensive
But I'll pay whatever price, you're like a drug I need to live
I'm addicted baby, and I want your kiss

Na, na, na Yeah, I want your kiss
Na, na, na I want your lips up against mine when we grind by my side
Oh baby 'cause you're super fly
And you got me, got me feeling good
And you got me, got me feeling
I want your kiss (When you're talking, when you're walking, oh baby don't stop it)
Oh yeah, I want your kiss ('Cause I need it, and I mean it, and you better believe it)
I want your lips up against mine when we grind by my side
Oh baby 'cause you're super fly
And you got me, got me feeling good

And I wanna, wanna, wanna, wanna, wanna,
I want your kiss
Na, na, na Na, na, na
