

# Idaho

Vicci Martinez

Can you paint with your eyes closed  
Can you walk on the sea  
Would you swim with your clothes on  
And dance around and be free

Would you climb up a mountain  
Climb your way to the top  
Soar across the clear blue sky  
And never let yourself drop

And I know  
Sun always sets, the birds fly high  
And the water is wet  
People can laugh and others will cry  
And I know we will be just fine  
Be just fine

Did you ever drive away  
In a car not your own  
Drive across this country  
Visit Idaho

And I know  
Sun always sets, the birds fly high  
And the water is wet  
People can laugh and others will cry  
And I know we will be just fine

Be just fine

And I know  
Sun always sets, the birds fly high  
And the water is wet  
People can laugh and others will cry  
And I know it will be just fine

Be just fine

And I know in the morning  
The sun will rise  
The light turns green  
It will shine in your eyes  
People grow older, and some grow wise  
And I know we will be just fine  
Be just fine

Be just fine

Be just fine
