

In Dreams

Vicci Martinez

Cigarette in bloom
The fire lighting up the room
I sit aside and I love you

Summer breeze come by
Tried to let you see my life
The night you cry inside and I love you

The yellow light turns red
You come crawling into bed
My Hand up on your head and I love you

I'm going up inside
I don't know where to hide
You run away from me
Stuck inside your web
I lie alone in bed
Life passes by in dreams

And crazy mother
She just tries to get her way
She woke up And I love you
Then your heart no times to rest
Another night of endless bliss and I love you

I'm going up inside
I don't know where to hide
But you run away from me
Stuck inside your web
I lie alone in bed
Life passes by in dreams

Close your eyes I open mine
You're so soft you're so fine
And I love you

I'm going up inside
I don't know where to hide
You run away from me
Stuck inside your web
I lie alone in bed
Life passes by in dreams
I'm going up inside
I don't know where to hide
But you run away from me
Stuck inside your web
I lie alone in bed
Life passes by in dreams
In dreams
In dreams
In dreams
