

Little Star

Vicci Martinez

Ohhhhh

The moon it covers up this night
Twinkle little star and shine your light on me
Shine your light on me
You're in my day you're in my dreams
When I wake up I wish only for one thing
You here smiling back at me
It's that's soul my harmony
You bring to me

And you leave and you free me

And I look to fill this empty space
Give me your heart, give me your love
Give me your grace
Give me your grace

It's that's soul my harmony
You bring to me
And you leave and you free me
It's that's soul my harmony
You bring to me
And you leave and you free me

We can't live love everyday
For some of us it's better that way
Yes for some of us
It's better that way

I will give my heart to you
My soul, my harmony too
I will leave
And I will free you
Yes I'll leave and I'll free you
And I will leave and I'll free you
