

Love Of Life

Vicci Martinez

If only i could pose it all
If only to rewind
It's been too long
Without you here
It's better with the time
And I wait to hear your voice
If only once again
The love of life goes on and on
It has no need to end

So close your eyes
And rest your heart
The worries of your mind
This moment still we live again
And making peace with time

Still I see it all
The way it used to be
Never to say goodbye
You live inside of me

And I wait to hear your voice
If only once again
The love of life goes on and on
It has no need to end

Still I see it all
The way it used to be
Never to say goodbye
You live inside of me
You live inside of me...

The love of life goes on and on
It has no need to end !
