

Where I Go

Vicci Martinez

You sing and play
Splashing all around
Hearing all the sound
Of this beautiful rain pouring down
And your candle burns
And we sleep another night
Hold each other tight
And we dream of the day
When everything can be this way

And i hear your voice
And you whisper in my ear
Tell me i'm so dear
And then i turn around, you disappear
What did i do
To make you feel this way, make you cry again
Yes i'm, i'm sorry its true
My heart it only smiles around you

And you'll find me where eagles fly around
Singing songs of hope across the sound
And you'll feel me with the sand beneath your toes
Swimming with the sun is where i go
Its where you go, where you go

We'll find a way to keep this going on
To sing another song babe
Just to keep us awake through these days
But I've given all my limits up
Your love its enough to keep me strong
As long as I know you know these feelings I cannot show
Together side by side, we carry on

And you'll find me where your eagles fly around
Singing songs of hope across the sound
And you'll feel me with the sand beneath your toes
Swimming with the sun is where i go
Its where you go, where you go
