

# You're Not Alone

Vicci Martinez

Sometimes things happen  
That reach out and test our souls  
But they happen for a reason  
To teach us what we don't know  
And somehow they get here  
U already know already know  
They were meant to be here  
And they're gonna help you grow babe

You'll never know who they gonna be  
But you'll know in your eyes can finally see a thing  
They care for you they were there for you  
And touch you and love is the key yeah

Cuz you're not alone  
So don't hold out on love  
And don't be afraid  
Because soon it will blow away  
And all of those clouds above me  
And let yourself fall down  
Cuz I will pick you up and  
All you have to do is call out

Love will get us through this  
And through this song yeah

And you'll never know who they gonna be babe  
But you'll know in your heart can finally feel it yeah  
They care for you and they were there for you babe  
And touch you and love is the key yeah

But you're not alone  
So don't hold out on love  
And don't be afraid  
Because the wind will blow away  
And all those clouds baby  
And let yourself fall down  
Cuz Imma pick you up  
All you have to do is call me now  
Call me yeah yeah yeah

Cuz love will get us through this  
And through this song  
I said that love will get us through this  
And through this song  
And love will get us through yeah through this song
