

## Deathwish

Vice Squad

You're drowning in your hopelessness  
Don't know if you're live or dead  
Your life has become such a mess  
Deathwish is all that's in your head  
A feeling of hopeless despair  
Enfolds you for no reason  
Your body imprisons your soul  
Death will lead you to freedom

Your habits force you to leave home  
You're getting drunk and taking drugs  
And life is harder on your own  
Staying out late and sleeping rough

Staring into space in a daze  
Against the wall, you try to stand  
Choking lungs and eyes so glazed  
Ashen face and trembling hands

The paranoia makes you blind  
Tearful eyes full of remorse  
The clouds descent around your mind  
You've got your wish, a walking corpse
