

No You Don't

Vice Squad

They've got constipated minds
Straight and narrow vision
Sign here on the dotted line
'Cause money is their mission

No you don't
You don't have to listen
No you don't
To the media hype
No you don't
No criticism
No you don't
From a stereotype

Take their advice and you can be
A pale imitation
Make your life a misery
Of failure and frustration

All these years and you've achieved
Anonymous rejection
Too many people getting off
On your dissatisfaction

Nobody needs it if it's bitter and twisted
They make you believe it that your chances were wasted
They tell you it's over, you already missed it
This ain't no way to live
