

## No You Don't

Vice Squad

They've got constipated minds  
Straight and narrow vision  
Sign here on the dotted line  
'Cause money is their mission

No you don't  
You don't have to listen  
No you don't  
To the media hype  
No you don't  
No criticism  
No you don't  
From a stereotype

Take their advice and you can be  
A pale imitation  
Make your life a misery  
Of failure and frustration

All these years and you've achieved  
Anonymous rejection  
Too many people getting off  
On your dissatisfaction

Nobody needs it if it's bitter and twisted  
They make you believe it that your chances were wasted  
They tell you it's over, you already missed it  
This ain't no way to live
