

# Young Blood

Vice Squad

Down the town it's Friday night  
See a band get in a fight  
Flash of steel, end of fun  
Growing up has just begun

More young blood, every night, ok  
Life down the drain  
More young blood, every night, ok  
Isn't it a shame  
More young blood, every night, ok  
Spilt in the streets  
More young blood, every night

Down to football here we go  
Tried to find last years foe  
They live behind a different scarf  
So we fight them for a laugh

More young blood, every night, ok  
Life down the drain  
More young blood, every night, ok  
Isn't it a shame  
More young blood, every night, ok  
Spilt in the streets  
More young blood, every night

Here they come over the park  
Shouts and war cries in the dark  
Flash of steel, end of fun  
Growing up has just begun

More young blood, every night, ok  
Life down the drain  
More young blood, every night, ok  
Isn't it a shame  
More young blood, every night, ok  
Spilt in the streets  
More young blood every night

Ok
