

March or Die

Vicious Rumors

March or die
If you defy it
We'll come smashing through
Marching into glory ride
The victory is due
We wear the cross of evil
And you take on the fight
March or die it's a battle cry
Prepare to ride tonight

Chorus:

You either march or die (march or die)
It's a battle cry
At the sounds of war March or die
You either march or die (march or die)
Not to wonder why
It goes on and on - on and on in war

March or die
The bodies fly
And the battle has begun
And who will last you or I?
To see the final sun
Onward raced the soldier
lay or run before
forward into battle
marching into war

March or die
If you defy it
We'll come smashing through
Forging armor 'til the end
The rest will come to you
Forces of the wicked are peering down on you
March or die it's a battle cry
The victory is due
