

Watch The Wind

Vickie Winans

Who knows just how much rain is gonna fall
Or if it will rain at all
I know if it decides to rain
Nothing will stay the same
Cause its all about change
So how can we know the hour
It's gonna shower
He told me to watch the wind

Watch the wind
Which way it blows
And it will show you
Just how to flow
Hold on tight
Enjoy the ride
And it will guide you
Through the night
Watch the wind

When people can't figure out
Just what to do
Or who they should look to
Like those back in the bible days
The lord has made a way for us
To make it through the day
Holy spirit, come on and shower
This very hour so we can watch the wind
