

Instant Gratification

Victims Family

Instant gratification, just add water.
Instant gratification, bring it to boil.
I want it now, all of it, every last single solitary bit.
Instant gratification isn't quick enough.

Mind you
After inventing the fire and the wheel, mankind needs something
Else to steal. Fire and wheel fused together as one, come on people
Let's go have some fun. The sun won't shine 'cause the sky turned
Gray, and nothing seems to grow in the acid rain, the river's gone
Dead but I couldn't care less, 'cause the spoiled little boy won't
Clean up his mess. Millions of years went by covered by shifting
Sands, dinosaurs decomposed, dinosaurs lay there frozen, in the
Earth that they once ruled, they turned into fossil fuel, consumed
By the fossil fools, I'm starting to learn about nature's rules
. Are we
To believe the remains we'll leave will become fossil fuel for
some
New fossil fools?
