

# Be With You

Victoria Beckham

Don't want nobody who don't satisfied, I spent a lifetime tonight,  
Of all the things I thought were right, someone who don't need to fight  
Maybe you feel what I feel it could be, better than ever before  
,  
Trying to fight (find????) what is meaning to me, baby it's you  
I adore,

Cause I only wanna be with, only wanna be with, only wanna be with you,  
Cause I only wanna be with, only wanna be with, only wanna be with you

I go to pieces everytime you're near, without you I won't survive,  
You say the words I wanna hear, you know your love is so right,  
Over and over with you in my head, feelings I cannot ignore,  
Finding a reason in things that you say, you in my life ever-more

Cause I only wanna be with, only wanna be with, only wanna be with you,  
Cause I only wanna be with, only wanna be with, only wanna be with you

Wanna be with you, wanna be with me, when the music plays take a chance on me  
All the things you do, all the little signs, wanna be with you  
wanna make you mine

Over and over with you in my head, feelings I cannot ignore,  
Finding a reason in things that you say, you in my life ever-more

Cause I only wanna be with, only wanna be with, only wanna be with you,  
Cause I only wanna be with, only wanna be with, only wanna be with you
