

# Baby Come Home

Victoria Duffield

Lost and alone  
Wanna see you again

I know that your  
Feeling the same

Thirty days at night  
I've been laying awake

Thinking of all the  
Things we could say

Are you feeling the same?

All i ready need is

Is for you the some home

If you could see it

I've been standing by the window

Waiting for the taxi cab to come

And drop you off into my arms

All i ready need is you  
To come home  
Baby come home

Counting the days till  
We dance in the moon light

I could get lost  
In your eyes

Thirty days at night  
I've been laying awake

Thinking of all the  
Things we could say

Baby just you and I

All i ready need is

Is for you the some home

If you could see it

I've been standing by the window

Waiting for the taxi cab to come

And drop you off into my arms

All i ready need is you

To come home I hear  
I knock on the door  
And my heart starts beating  
It this real or am I dreaming?

And i heart the sound of your voice

Don't wanna open my eyes

Lost and alone  
Wanna see you again

I know that your  
Feeling the same

All i ready need is

Is for you the some home

If you could see it

I've been standing by the window

Waiting for the taxi cab to come

And drop you off into my arms

All i ready need is you  
To come home

All i ready need is

Is for you the some home

If you could see it

I've been standing by the window

Waiting for the taxi cab to come

And drop you off into my arms

All i ready need is you  
To come home
