

# Bulletproof

Victoria Duffield

I hear your voice, it's echoing  
Right through the walls, I'm listening  
You keep calling out my name  
I'm running, running against the wind  
Just to be closer to you again  
I feel alive when we're face to face

I feel like crashing  
Make it blast and last until I fall

Even if love is a memory  
Doesn't matter now cause you're here with me  
When I'm with you, I'm bulletproof

Don't wanna wake up if it's just a dream  
I could stay forever and never leave  
When I'm with you, I'm bulletproof

I'll fall into your gravity  
Fill up on all the air you breathe  
Nothing can pull me from this place  
Don't go, protect me from everything  
Push, pull me out of reality  
I don't feel safe when you're far away

I feel crashing  
Make it blast and last until I fall

Even if love is a memory  
Doesn't matter now cause you're here with me  
When I'm with you, I'm bulletproof

Don't wanna wake up if it's just a dream  
I could stay forever and never leave  
When I'm with you, I'm bulletproof

I could stay up here forever  
Higher than I could remember  
And I don't wanna come down

Now, now, now, now

Even if love is a memory  
Doesn't matter now cause you're here with me  
When I'm with you, I'm bulletproof

Don't wanna wake up if it's just a dream  
I could stay forever and never leave  
When I'm with you, I'm bulletproof
