

# Feel

Victoria Duffield

Been there, D-d-Done it, it's the same every day  
D-d-don't you, don't you, want it, don't you want it to change?  
I'm on automatic, and I'm about to ignite.  
There's something deep inside you, wanna set it on fire

Music is hypnotic, move your body, you got it  
When the rhythm takes over you let it. Just. let. go.  
Love is hypnotic, euphoric, exotic  
So when you get the shut out, you gotta take it!

[Chorus:]

I want you to feel (move your body, move your body) the way that I feel  
Tonight I feel like everything that we ever dreamed  
It's not as hard it seems to make it real  
But I want you to feel!  
I want you to feel!

Can you feel the rush like you're electric inside?  
M-m-moving through our lovers it's a serious vibe  
Better take a chance, you know I won't ask ya twice  
Feel the fever rising baby, this is your life!

Music is hypnotic, move your body, you got it  
When the rhythm takes over you let it. Just. let. go.  
Love is hypnotic, euphoric, exotic  
So when you get the shut out, you gotta take it!

[Chorus:]

I want you to feel (move your body, move your body) the way that I feel  
Tonight I feel like everything that we ever dreamed  
It's not as hard it seems to make it real  
I want you to feel, the way that I feel  
Tonight I feel like I  
I got the music inside, and I feel so alive, it's so unreal  
But I want you to feel!

If you don't know where to start  
Listen to your heart, and feel!

[Chorus:]

I want you to feel (move your body, move your body) the way that I feel  
Tonight I feel like everything that we ever dreamed  
It's not as hard it seems to make it real  
I want you to feel! The way that I feel.  
Tonight I feel like I  
I got the music inside, and I feel so alive, it's so unreal  
I want you to feel!  
Just let go, let go, let go, feel!
