

Holographic

Victoria Duffield

You're Holographic, It's problematic
I can't help looking, boy
Boy when you knock, when you knock on my door
My heart is jumping up off of the floor
I know you know how to touch me like wow
I'll be coming at it right now, now, now

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins
Cause your love, love, love, love, your love is insane

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins
Cause your love, love, love, love, your love is insane

You're Holographic, It's problematic
I can't help looking, boy
Boy when you knock, when you knock on my door
My heart is jumping up off of the floor
I know you know how to touch me like wow
I'll be coming at it right now, now, now

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins
Cause your love, love, love, love, your love is insane

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins
Cause your love, love, love, love, your love is insane

You're Holographic, It's problematic
My bodies static
And my heart's in panic
You're Holographic, It's problematic
I can't help looking, boy

You're Holographic, It's problematic
My bodies static
And my heart's in panic

Boy when you knock, when you knock on my door
My heart is jumping up off of the floor
I know you know how to touch me like wow
I'll be coming at it right now, now, now

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins
Cause your love, love, love, love, your love is insane

Like a circus, circus in my brain
Like a drug I don't wanna take everyday
Like a disco you flow through my veins

Cause your love, love, love, love, your love is insane
