

Fireman

Village People

The fire is burning
You feel it down below
The flames are getting hotter
You wanna let your body go
You trying to hold back
You can't fight your desire
So come on, now honey, lets jump into the fire

And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can
And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can

The smoke is a-rising, the feeling of the sky
Your body is calling, I see it in your eyes
There's no need to fear it, I'll be your fireman
So come on, now honey, lets get some while we can

And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can
And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can

And there be no stopping
'Cause I'm your fire man
Honey there's no stopping
You better grab some while you can
And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can

Your passion is boiling, I see it on your face
The flames are a-rising, they're filling up the place
You want me, I know it, and that's a natural fact
So come on, now honey, lets jump into the act

And there be no stopping
'Cause I'm your fire man
Honey there's no stopping
You better grab some while you can
And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can

I'm your fireman
Get them while you can
I'm your fireman

Get them, get them

And there be no stopping
'Cause I'm your fireman
Honey there's no stopping
You better grab some while you can
And there be no stopping
'Couse I'm your fireman
Honey there's no stopping
You better grab some while you can
