

# Judgement Call

Villagers

All the dirt and the worry left when  
I realized that I knew it all  
How it started and how it's gonna end  
It's a judgement call  
And I don't need no proof  
It's a judgement call  
The writing's on my wall  
It's a judgement

And you can come if you get behind it  
And if you wear this long white shawl  
Cause we're the clean, and the right and the chosen ones  
It's a judgement call  
And I don't need no proof  
It's a judgement call  
The writing's on my wall  
It's a judgement

And we gotta keep the wheels in motion  
And we gotta get the kids before they grow  
God forbid they would gain their sense of wonder  
It's a judgement call  
Their sense of wonder  
It's a judgement call  
Their sense of wonder  
It's a judgement

No I don't need to think for myself  
No I don't need to think at all  
When the team says go, I go  
It's a judgement call, it's a judgement call

No we don't need to think for ourselves  
No we don't need to think at all  
When the screen says go, we go  
It's a judgement call, it's a judgement

And I believe this land is my land  
And you are not the same at all  
Cause the man in the sky has got my back  
And I don't need no proof  
It's a judgement call  
The writing's on my wall  
I don't need no proof  
The writing's on my wall  
It's a judgement call  
No I don't need no proof  
It's a judgement call  
So you better start running  
It's a judgement  
It's a judgement  
It's a judgement

I made your world a living hell  
I've lost the will to judge myself.
