

# The Bell

## Villagers

There is a sleeping dog  
Under this dialogue  
Obedient only to rhyme  
And if I could beckon her  
If I could find the words  
All they would be is lies  
Tell me why this failure is making you smile

Then off goes the bell ringing through my head  
Signifies that all's been said  
This failure is making you smile  
Off goes the bell ringing through my head

There is a passenger  
In every useless word  
That can never be twisted or sold  
Center of my skin  
The body of discipline  
It must be a million years old  
I've been told you're offering more than you owe

Then off goes the bell ringing through my head  
Signifies that all's been said  
You're offering more than you owe  
Off goes the bell ringing through my head

Then off goes the bell ringing through my head  
Signifies that all's been said  
Off goes the bell ringing through my head

Then off goes the bell ringing through my head  
Signifies that all's been said  
Off goes the bell ringing through my head
