

## Half a Chance

Vince Gill

Give me half a chance to make you love me  
Give me half a chance to make you stay  
Give me half a chance before you leave me  
Half a chance before you turn and walk away

I'm holdin' on just like you told me  
I put my heart right on the line  
You know your love it really sold me  
But I never had the chance to make you mine

Give me half a chance to make you love me  
Give me half a chance to make you stay  
Give me half a chance before you leave me  
Half a chance before you turn and walk away

You said you'd never say it's over  
Well, I guess my heart can't beat your pride  
You said I'd always be your lover  
But you're gone and my tears still haven't dried

Give me half a chance to make you love me  
Give me half a chance to make you stay  
Give me half a chance before you leave me  
Half a chance before you turn and walk away

Half a chance before you turn and walk away
