High Lonesome Sound

Vince Gill

Whenever my soul is lonely Whenever I'm feeling blue I start thinkin' 'bout my blue eyed darlin' And my heart starts pinin' for you

I wanna hear that high lonesome sound 'Cause my sweet baby ain't around When my life's got me down
I wanna hear that high lonesome sound

When I'm lost in this ocean of darkness Not knowing which way I should turn And my eyes are filled with sadness Of knowing you'll never return

I wanna hear that high lonesome sound 'Cause my sweet baby ain't around When my life's got me down
I wanna hear that high lonesome sound

I wanna hear that high lonesome sound 'Cause my sweet baby ain't around When my life's got me down
I wanna hear that high lonesome sound

I wanna hear that high lonesome sound 'Cause my sweet baby ain't around When my life's got me down
I wanna hear that high lonesome sound
