

Look What Love's Revealing

Vince Gill

The sweetest smile
The shyest kiss
Two wounded hearts
Were not expecting this

Look what love's revealing
Something to believe in
Time to start the healing
For you and me
Look what love's revealing
Promises for keeping
It's natural as breathing
Look what love's revealing

Willing to trust
We'll make it through
You reach for me
And find me reaching too

Look what love's revealing
Something to believe in
Time to start the healing
For you and me
Look what love's revealing
Promises for keeping
It's natural as breathing
Look what love's revealing

It's as natural as breathing
Look what love's revealing
