

What If I Say Goodbye

Vince Gill

What if I say I love you?
Would it mean as much as it used to?
Could it help the hurt that we're putting us through?
What if I said goodbye?

What if tomorrow you wake up
And I'm not around, would you break up?
Would you take one step towards me to make up?
What if I said goodbye?

What would you do if I do
What I should have done long ago?
Is there someone you'd turn to as soon as I left?
Someone you already know

What if I say I love you?
Would you want to make up like I do?
Could we possibly salvage the dreams we knew?
What if I said goodbye?

What would you do if I do
What I should have done long ago?
Is there someone you'd turn to as soon as I left?
Someone you already know

What if I say I love you?
Would it mean as much as used to?
Could it help the hurt that we're putting us through?
What if I said goodbye?
