

# What You Give Away

Vince Gill

You read the business page  
See how you did today  
You live up on the hill  
You've got a view that kills  
Never wonder why

After you've counted everything you saved  
Do you ever hit your knees and pray?  
You know there's gonna be a judgment day  
So what will you say?

No matter what you make  
All that you can take  
Is what you give away  
What you give away

There's people on the street  
Ai't got enough to eat  
You just shake your head  
The measure of a man is one who lends a hand  
That's what my father said

After you've counted everything you saved  
Do you ever hit your knees and pray?  
You know there's gonna be a judgment day  
So what will you say?

No matter what you make  
All that you can take  
Is what you give away  
What you give away

It's what you give away

After you've counted everything you saved  
Do you ever hit your knees and pray?  
You know there's gonna be a judgment day  
So what will you say?

No matter what you make  
All that you can take  
Is what you give away

You know it's not too late  
It's all for Heaven's sake  
What you give away  
What you give away  
What you give away
