

What You Give Away

Vince Gill

You read the business page
See how you did today
You live up on the hill
You've got a view that kills
Never wonder why

After you've counted everything you saved
Do you ever hit your knees and pray?
You know there's gonna be a judgment day
So what will you say?

No matter what you make
All that you can take
Is what you give away
What you give away

There's people on the street
Ai't got enough to eat
You just shake your head
The measure of a man is one who lends a hand
That's what my father said

After you've counted everything you saved
Do you ever hit your knees and pray?
You know there's gonna be a judgment day
So what will you say?

No matter what you make
All that you can take
Is what you give away
What you give away

It's what you give away

After you've counted everything you saved
Do you ever hit your knees and pray?
You know there's gonna be a judgment day
So what will you say?

No matter what you make
All that you can take
Is what you give away

You know it's not too late
It's all for Heaven's sake
What you give away
What you give away
What you give away
