

Make You Feel

Vince Neil

Everything I do for you, I mean it from the heart
And all the little things that hurt
It's best to keep them to yourself
So don't tell me please don't tell me now
Don't tell me, just don't tell me
I'll make you, I'll make you feel again
I'll make you, I'll make you feel again
You know I do and I always do
You know I do
Secrets, secrets I don't care
Go tell your secret friend
Life's a ride it takes you up
And knocks you down again
So don't tell me please don't tell me now
Don't tell me, just don't tell me
I'll make you, I'll make you feel again
I'll make you, I'll make you feel again
You know I do and I always do
You know I do
Been here many times before
Found out there's nothing new
It feels so real, looks so far like
I got you where I want you
I got you where I want you
I'll make you, I'll make you feel again
I'll make you, I'll make you feel again
You know I do and I always do
You know I do
