

Deeper And Deeper

Vinnie Vincent Invasion

She's the kind of girl that I love to love
The angels sacred mystery
Heaven sent from up above
She's a living fantasy

Poetry in motion she takes my breath away
And when I drink from her fountain of love
It tastes sweeter more each day ooh baby

Deeper and deeper, deep in love with you
Deeper and deeper, deep in love with you little girl

Lady love I know your name
You're always on my mind baby
Emotions that I just can't explain
It feels just like the first time

Heavens chosen angel the answer to my prayers
I found a new kind of wonderful
This magic we share

Deeper and deeper, deep inside my heart
Deeper and deeper, we're never going to stop fallin'
Deeper and deeper, deep in love with you little girl
Deeper and deeper, deep in love with you

I know she loves me only
She's with nobody else
I never thought I'd feel this way
Words alone can't tell

Deeper and deeper, deep in love with you
Deeper and deeper, deep in love with you little girl
