

# Dead to This World

Violator

Consumerism has a hidden face  
Immigrants disgraced in foreign land  
Freedom stolen, dignity destroyed  
Brand new slavery

Forgotten and exploited  
Enslaved and deceived  
A life without value  
You're dead to this world

Dead  
To this world

Corporations profits with death  
People disposable by servitude  
Surveillance so they will always serve  
A prison with no walls

Brought to this country and deluded by promises of hope  
The pain you feel now, your family feels again, won't go away

Cycle of perversity  
Modern atrocity  
Brand new slavery  
In global economy  
Consumes hypocrisy  
Fake liberty  
No morality  
Now you are dead to this world
