

## Toxic Death

Violator

Wake up!  
Missiles are crossing the sky  
You never thought this day would really come  
Better seek shelter in hell  
Than try escape from insanity

No Future  
Annihilation is a profit  
Wretched  
Apocalypse is not a prophecy

Prepare for Toxic Death!  
Prepare for Toxic Death!

Gasp!  
The Eyes are burning in pain  
When the air becomes your enemy?  
Acid runs in your veins  
Infected by a lethal plague

Slow Death  
While militaries are laughing  
Human Waste  
Bullets can't feed the survivals (of the war)

A force no one control  
A way to total end - Chemical  
A power to splinter the world  
A desert whose bloods sand - Chemical Assault!
